Young, George J., subject index.

## SUBJECT INDEX

### A

- Acrocyanosis, iii, 8.
- Acute bacterial endocarditis, iii, 12.
- Acute pericarditis, ii, 1.
- Anaesthesia, heart in relation to, ii, 5.
- Aneurysm, dissecting, of aorta, ii, 1, Abs.
- Angina pectoris, i, 7.
  - neurosurgical treatment of, iv, 8.
  - thyroidectomy in treatment of, iii, 2, Abs.
- Aorta, arch,—inequality of blood pressure in brachial arteries with especial reference to disease of, ii, 3, Abs.
  - dissecting aneurysm of, ii, 1, Abs.
- Arteriovenous fistula, iii, 8.
- Arteries of extremities, diseases of, iii, 8.
- Artery, pulmonary, sclerosis of, iii, 7.
- Asthenia, neurocirculatory, ii, 7.
- Athletics, heart and, iii, 5.
- Auricular fibrillation,—etiology, age incidence, and production by digitalis therapy, i, 10, Abs.
- Auriculoventricular heart block, iv, 10.

### B

- Bacterial endocarditis, acute, iii, 12.
  - subacute, course and outcome of, iii, 6.
- Beriberi, iii, 9.
- Block, heart, auriculoventricular, iv, 10.
  - experimental evidence for use of epinephrine and barium chloride in, ii, 11, Abs.
- Blood pressure, inequality of, in brachial arteries, with especial reference to disease of arch of the aorta, ii, 3, Abs.
- Blood vessels of extremities, diseases of, iii, 8.
- Bronchial asthma, relation of heart disease to, ii, 2.
- Buerger's disease, iii, 8.

### C

- Caffeine, treatment with, in cardiovascular disease, iii, 4.
- Camphor, treatment with, in cardiovascular disease, iii, 4.
- Cardiac neurosis, ii, 7.
- Cardiac standstill, effect of drugs on, ii, 11, Abs.
- Cardiovascular disease, diabetes and, iv, 1.
  - drugs used in treatment of, iii, 3, 4.
  - treatment of older diabetic patients with, i, 7, Abs.
- Cardiovascular disease, X-ray interpretation of, ii, 9, 10, 11.
- Cardiovascular emergencies, significance and treatment of, ii, 8.
- Cardiovascular syphilis, i, 4.
- Chronic pericarditis, ii, 4.

- Circulatory failure, peripheral. The role of in clinical medicine, iv, 9.
- Congenital heart disease, i, 9.
- Coronary thrombosis, i, 10.

### D

- Deficiency diseases, the heart and, iii, 9.
- Diabetes, and cardiovascular disease, iv, 1; i, 7, Abs.
  - heart in, iii, 9.
- Diet, in treatment of heart disease, ii, 12.
- Digitalis, the proper administration of, i, 1.
  - effect of, on dyspnea and on ventilation of ambulatory patients with regular cardiac rhythm, i, 9, Abs.
  - production of auricular fibrillation by, i, 10, Abs.
- Diuretics, i, 2.
- Dyspnea, effect of digitalis on, in ambulatory patients with regular cardiac rhythm, i, 9, Abs.

### E

- Edema, mechanism of formation of, iv, 11.
  - from protein deficiency, heart and, iii, 9.
- Effort syndrome, ii, 7.
- Electrocardiogram, diagnosis of cardiac infarction, iv, 5, 6.
  - value of, i, 11.
- Emergencies, cardiovascular, treatment of, ii, 8.
- Emphysema, relation of heart disease to, ii, 2.
- Endocarditis, acute bacterial, iii, 12.
  - subacute bacterial, course and outcome of, iii, 6.
- Epinephrine and ephedrine groups, treatment of cardiovascular disease with, iii, 3.
  - its effect on cardiac mechanism in experimental hyper- and hypothyroidism, ii, 6, Abs.
- Erythromelalgia, iii, 8.
- Extremities, diseases of blood vessels of, iii, 8.

### F

- Failure, heart:
  - congestive, relation between thickness of cardiac muscle fiber and optimum rate of heart, i, 11, Abs.
  - mechanism of, iii, 10, 11.
  - pathogenesis of, iv, 8, Abs.
  - peripheral circulatory, iv, 9.
  - pleural effusion in, localized, a report of 2 cases, i, 11, Abs.
  - treatment of, apart from use of digitalis, i, 2.
  - thyroidectomy in treatment of, iii, 2, Abs.
- Fistula, arteriovenous, iii, 8.
- Functional tests of heart, iii, 2.

## SUBJECT INDEX

### H

- Heart: functional tests of, iii, 2.  
 —in acute infections, iii, 1.  
 —in relation to anaesthesia and surgery, ii, 5.  
 —and athletics, iii, 5.  
 —and deficiency diseases, iii, 9.  
 —infarction, electrocardiographic diagnosis of, iv, 5, 6.  
 —in myxedema, iv, 7.  
 —in thyroid disease, i, 5; iii, 9.  
 Heart block, see Block, heart.  
 Heart disease:  
 —in relation to bronchial asthma and emphysema, ii, 2.  
 —congenital, i, 9.  
 —diet in treatment of, ii, 12.  
 —historical notes on, i, 12.  
 —hypertensive, i, 2.  
 —and pregnancy, i, 6.  
 —rheumatic, prognosis in, iv, 12.  
 —its relation to tuberculosis, ii, 3.  
 Heart sound, first, mode of production of, ii, 12, Abs.  
 Historical notes on heart disease, i, 12.  
 Hypertensive heart disease, i, 8.  
 Hypotension, clinical significance of, iv, 4.

### I

- Infarctions, electrocardiographic diagnosis of, iv, 5, 6.  
 Infections, heart in acute, iii, 1.

### K

- Karrell diet, i, 2.

### M

- Myocardial fibrosis, a study of pathogenesis of, 1, 12, Abs.  
 Myxedema, the heart in, iv, 7.

### N

- Neurocirculatory asthenia, ii, 7.  
 Neurosurgical treatment of angina pectoris, iv, 8.

### P

- Pellagra, heart and, iii, 9.  
 Pericardial effusion, a clinical study, ii, 2, Abs.  
 Pericarditis, acute, ii, 1.  
 —chronic, ii, 4.

- Peripheral circulatory failure, role of in clinical medicine, iv, 9.  
 Pleural effusion, localized, in heart failure. A report of 2 cases, i, 11, Abs.  
 Pregnancy, heart disease and, i, 6.  
 Pseudo-angina, i, 7.  
 Pulmonary artery sclerosis, iii, 7.

### Q

- Quinidine, use of, ii, 6.

### R

- Raynaud's disease, iii, 8.  
 Rheumatic fever, i, 3.  
 —predisposing factors in, iv, 3.  
 Rheumatic heart disease, prognosis in, iv, 12.  
 Rickets, heart in, iii, 9.

### S

- Scurvy, heart and, iii, 9.  
 "Soldiers' Heart," ii, 7.  
 Stokes-Adams syndrome, treated with ephedrine group, iii, 3.  
 Strychnine, treatment of cardiovascular disease with, iii, 4.  
 Subacute bacterial endocarditis, course and outcome of cases of, iii, 6.  
 Surgery, heart in relation to, ii, 5.  
 Syphilis, cardiovascular, i, 4.

### T

- Thrombo-angiitis-obliterans, iii, 8.  
 Thrombosis, coronary, i, 10.  
 Thyroid disease, heart in, i, 5; iii, 9.  
 Thyroidectomy, in treatment of advanced congestive heart failure, iii, 2, Abs.  
 Treatment of heart failure:  
 —apart from the use of digitalis, i, 2.  
 —with camphor, caffeine, and strychnine groups, iii, 4.  
 —with ephedrine group, iii, 3.  
 Tuberculosis, heart disease and, ii, 3.

### V

- Vascular diseases of extremities, iii, 8.  
 Veins, diseases of, iv, 2.

### X

- X-ray interpretation of cardiovascular disease, ii, 9, 10, 11.
